

## Welcome Mac Users

**Information provided on this page will assist you when using the electronic Excel calculators.**

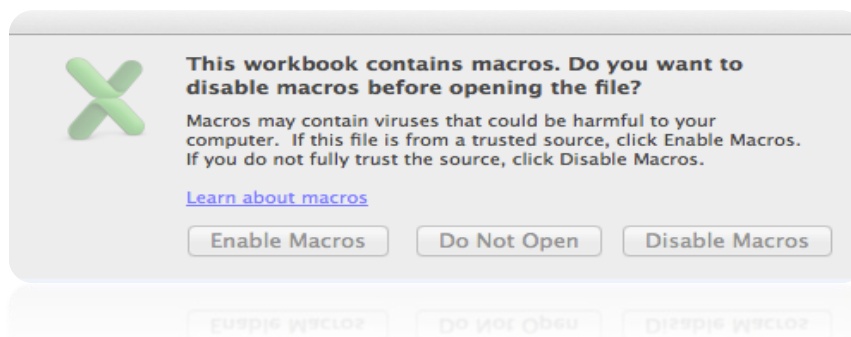

### **A. Information on “Dialog message box concerning defined names that conflict.”**

When opening the Child Support Calculator with a Mac PC, you will receive the following dialog box:

This is a warning message and will not affect any of the calculations for Child Support. Click the “OK” button.

Next you will see the following dialog box:

Select the “Enable Macros” and you will be ready to start entering your Child Support Information.

### **B. Information on Excel 2008**

Excel for Mac 2008 version does not use or support Visual Basic Code (VBA), which is used and is necessary to run the Excel calculators; therefore, it will be necessary for you to use the Excel for Mac 2004 or 2011 versions to create a worksheet when using the electronic calculators.
